SECTION 01

HOOKS & THE FIRST SECOND

- 01 text hook = keywords your ideal viewer already cares about
- 02 keywords go at the start or end of each line. not the middle
- 03 first second = something has to move. camera pan, set it down, anything
- 04 job title in your name field = free SEO tool
- 05 visual hook + text hook. you need both

.....

SECTION 02

CAPTIONS

- 06 on screen captions = non negotiable. people watch on mute
- 07 on screen captions = max two lines
- 08 text not contrasting with background = unreadable = ignored
- 09 written caption = don't stress it
- 10 long caption 👍 only if it's actually valuable

.....

SECTION 03

YOUR BIO

- 11 bio = sum up your profile at a glance
- 12 don't know what to write in bio = just put your content pillars
- 13 bio should give off the right vibe even if it's not literal
- 14 starting out = clarity over clever in your bio

.....

SECTION 04

THE ALGORITHM IS JUST PEOPLE

- 15 the algorithm = just people
- 16 video flopped = ask how you came across to people. that's your answer
- 17 "algorithm hated my outfit" = people didn't like your outfit
- 18 blame yourself not the algorithm. it'll actually help you improve
- 19 the algorithm = psychology. that's it

.....

SECTION 05

NICHE & HASHTAGS

- 20 first 5 to 10 posts = teaching the platform your niche
- 21 niche = keep it obvious early
- 22 hashtags = useful at the start to categorize your content
- 23 posting outside your niche = use a hashtag to help place it
- 24 established account = hashtags matter very little

.....

SECTION 06

EDITING

- 25 good editing = not required
- 26 over edited = looks like spam and AI
- 27 under edited = working right now. looks human 👍
- 28 all you need = good idea + text hook + visual hook + captions
- 29 editing as an art form 👍 but not a requirement

.....

SECTION 07

ON CAMERA & ENERGY

- 30 on camera = talk like you're leaving a voice note
- 31 energy that isn't yours = reads fake immediately
- 32 naturally low energy = lean in. that's your vibe
- 33 amp it up slightly if you need to. don't perform
- 34 authenticity = just don't pretend to be someone else

.....

SECTION 08

VIEWS VS FOLLOWERS

- 35 views ≠ followers
- 36 top of funnel content = views. relatable, trending, easy to consume
- 37 top of funnel = does not convert to followers
- 38 followers = content that gives people a reason to come back
- 39 ask yourself what made you hit follow last time. make that
- 40 educational content = people follow so they don't miss the next one
- 41 lifestyle content converts too when it offers something. inspo, a feeling, a perspective
- 42 you're always offering something. figure out what yours is

.....

SECTION 09

NEVER RUN OUT OF IDEAS

- 43 scrolling and had a thought about a video = save it immediately
- 44 having a conversation in your head while watching = that's your next video
- 45 find a video that did well + add your two cents = the whole game
- 46 copying format and topic = normal. word for word = not ok
- 47 feel stuck = journal. your opinions are content
- 48 best content ideas = stuff you already believe. not stuff you googled
